SUMMARY

Self-employed developer and brand strategist with a diverse background in leadership, marketing, and project management. Technically strong, approaching development and problem-solving with a big-picture perspective, leaning on past experience. Values humility and shared success amongst the team, thriving in roles that grant autonomy and ownership of work. Passionate about leveraging technology to address real-world challenges and eager to apply past experiences to drive positive influence within a progressive and impactful company.

TECHNOLOGIES

Typescript | **Next.js** | **React** | **Node.js** | **HTML** | **CSS** | **Git** | **MongoDB** | **SQL** | **WordPress** | **Figma** | **Jira**

PROFESSIONAL EXPERIENCE *Additional Experience Available Upon Request*

SAVVYTECH, LLC ~ FREELANCE DESIGNER & DEVELOPER

Remote | 2024 - Present

- Design and develop websites for clients using Figma, Typescript, Next.js, WordPress, or no-code tools.
- Work with clients to develop comprehensive brand identities that encapsulate their vision with modern UI/UX and goals to increase conversion rates for their target audience.
- Problem-solve and redesign outdated websites and applications to modern standards.

SLOPOPEDIA ~ REACT DEVELOPER

Remote | January 2024 - April 2024

- Worked with a team to translate Figma designs into a social site with React, Tailwind CSS, and GraphQL.
- Created and solved issues using Jira to manage project workflow and assess areas for improvement.
- Conducted code reviews on pull requests and suggested strategic improvements to the codebase.

TEAM ENTERPRISES MARKETING AGENCY ~ BRAND AMBASSADOR - SANTA TERESA RUM

Denver, CO | September 2022 - January 2024

- Designed and executed marketing campaigns for myself and the local team that led to a 150% increase in sales across the Colorado market within the first year.
- Consistently hit 300% of KPI targets, surpassing all sales goals while staying under budget.

ADRIFT TIKI BAR ~ GENERAL MANAGER / BEVERAGE DIRECTOR

Denver, Colorado | January 2017 - April 2022

- Transformed a struggling business into a profitable Denver staple, doubling sales over my 5-year tenure.
- Fostered a team-oriented culture focused on personal growth, significantly improving employee tenure.

EDUCATION

TRIPLETEN BY YANDEX ~ FULL-STACK DEVELOPER PROGRAM

Remote | January 2023 - January 2024

- Completed 1000+ hours of hands-on coding experience in JavaScript, React, Node.js, HTML5, and CSS3, using BEM methods, studying best practices and modern approaches to design challenges.
- Developed several responsive single-page applications, focusing on efficiency and user experience.
- Studied and implemented front-end and back-end aspects of applications, including database modeling, user authentication, REST APIs, web deployment, and modern UI/UX.
- Finished my [Final Project](#) with Figma, Typescript, and Next.js to create a website for a real-world client.

MONROE COMMUNITY COLLEGE ~ ASSOCIATES IN CHEMISTRY

Rochester, NY | September 2009 - June 2012

- Notable strengths in logic, sciences, high-level math, communications, graphic design, and economics.
